From July 2014, I am member of the Laboratory Teaching Personnel of the Agricultural University of Athens (Department of Natural Resources Management & Agricultural Engineering, Division of Water Resources Management (WRM), Laboratory of Agricultural Hydraulics).

From 1997 until 2014, I worked as a member of a research team in Agricultural University of Athens (Department of Natural Resources Management & Agricultural Engineering, Division of Water Resources Management (WRM), Laboratory of Agricultural Hydraulics).

My main research and teaching subjects are: Hydrology, Environmental Hydrology, Hydrological Modeling, Hydrometry, WRM, and Geographical Information System (GIS) applications development in the fields of WRM, Hydrology and Pedology.

In parallel, from 1999 up to now, I work as a scientific partner in several projects conducted by other Departments of AUA, by the Soil Science Institute of Athens of the National Agricultural Research Foundation (N.AG.RE.F.), by the Centre for Renewable Energy Sources and Saving (CRESES), and by the School of Mechanical Engineering of NTUA.

Finally, from 2004 up to now, I am responsible for the organization, instrumentation, and operation of the experimental watershed of the division of WRM of the Agricultural University of Athens (Lykorrema experimental watershed, mount Penteli, Attica, Greece).
