

CV AND PUBLICATIONS

JOHN D. VALIANTZAS

1. **Name:** JOHN D. VALIANTZAS

2. **Current work address / Present Activity**

Professor

of Agricultural University of Athens,

Department of Natural Resources Management and Agricultural Engineering,

Division of Water Resources Management,

75 Iera Odos, 11855 Athens

Email: ival@aua.gr

3. **Awards**

(1) **Best of the year 2015 Research Paper Award**, from the ASCE [*Journal of Irrigation and Drainage Engineering*](#)-Environmental and Water Resources Institute (EWRI) of the American Society of Civil Engineers (ASCE), for the papers: **John D. Valiantzas**: “*Simple ET forms of Penman’s equation without wind and/or humidity data I Theoretical development*” and Valiantzas, J. D. “*Simple ET forms of Penman’s equation without wind and/or humidity data II-Comparisons with reduced et-FAO and other methodologies*” published in January 2013.

(2) **Best of the year 2013 Discussion Paper Award**, from the ASCE [*Journal of Hydrologic Engineering*](#)-Environmental and Water Resources Institute (EWRI) of the American Society of Civil Engineers (ASCE), for the discussion paper: **John D. Valiantzas**: “*Case Study on the Accuracy and Cost/Effectiveness in Simulating Reference Evapotranspiration in West-Central Florida*”, *J. Hydrol. Eng.*, 2012, 17(1), 224–225.

(3) **Best of the year 2010 Research Paper Award**, from the ASCE [*Journal of Irrigation and Drainage Engineering*](#)-Environmental and Water Resources Institute (EWRI) of the American Society of Civil Engineers (ASCE), for the paper: **John D. Valiantzas**: “*Explicit Power Formula for the Darcy–Weisbach Pipe Flow Equation: Application in Optimal Pipeline Design*” published in July/August 2008

(4) **Best of the year 2006 Discussion Paper Award**, from the ASCE *Journal of Irrigation and Drainage Engineering*-Environmental and Water Resources Institute (EWRI) of the American Society of Civil Engineers (ASCE), for the discussion paper: **John D. Valiantzas** “*Equivalent Friction Factor Method for Hydraulic Calculation in Irrigation Laterals*”, July/August 2004

(5) Presentation at the “*Network of Excellence for Universities*” - Greek Ministry of Education - of the action of excellence of John D. Valiantzas entitled “Simplified optimization techniques for irrigation systems”:

<http://excellence.minedu.gov.gr/listing/137-irrigation>

<http://excellence.minedu.gov.gr>

4. Professional employment

1986-1991 Researcher at the Laboratory of Agricultural Hydraulics of Agricultural University of Athens (AUA)

1991-1999 Assistant Professor at the Department of Natural Resources Management and Agricultural Engineering, AUA

1999-2004 Associate Professor at the Department of Natural Resources Management and Agricultural Engineering, AUA

2004- Professor at the Department of Natural Resources Management and Agricultural Engineering, AUA.

5. Education

1. Rural and Surveying Engineering, National Technical University of Athens, 1975
2. Hydraulic Engineering (Section Special) of “Institute National Polytechnique” of Toulouse (France), 1976
3. DEA of “Institute National Polytechnique” of Toulouse (France), 1977
4. Docteur Ingenieur of “Institute National Polytechnique” of Toulouse (France), 1979

6. Foreign languages

English, French

7. Courses Taught

Irrigation Systems

Soil Physics and Irrigation

General Hydraulics

Closed Conduits Hydraulics

Open Channel Hydraulics

Surface Hydrology

PC Computing in Water Resources

8. Administrative Positions

- 2000-2001 member of the Senate of AUA
- 2001-2003 Associate-President of the Department of Natural Resources Management and Agricultural Engineering, AUA
- 2005-2006 και 2006-2007 Director of the Division of Water Resources Management, AUA.
- 2012- Member of the University Council of AUA.
- 2014- Director of the Laboratory of Agricultural Hydraulics.

9. Areas of Research Interest

1. Agro-Hydrology, Soil Hydrology, Transport phenomena in porous formations, Hydrological Process.
2. Hydraulic analysis and optimum design of farm irrigation systems (surface irrigation, trickle and sprinkler irrigation systems). Irrigation scheduling
Open channel and closed conduits hydraulics.
3. Numerical simulation, experience in modeling:
Ground water flow, unsaturated flow, hydraulic analysis and optimum design of farm irrigation systems, closed conduits networks.
Inverse problem numerical solution in Hydrology, Hydraulics, Soil physics, and Irrigation.

10. Reviewer

Reviewer of the following **referred international journals**:

1. Agricultural Water Management
2. Geoderma
3. Irrigation Science
4. Journal of Applied Meteorology and Climatology
5. Journal of Irrigation and Drainage Engineering, ASCE
6. Soil Science Society of America Journal
7. Water Resources Management
8. Water Resources Research
9. Journal of Hydrology
10. Hydrological Sciences Journal
11. Archives of Agronomy and Soil Science

11. Research Projects

1. TITLE: The Effect of Cultivation Practices in the Physical Properties of the Upper Soil, Duration: 1985-1990, Budget: 180.000 ECU, Financial Sources: EU.
2. TITLE: Estimation of Distribution Uniformity from Field Evaluations of Irrigation Systems, Duration: 2002-2003, Principal Investigator: K. H. Solomon, California Polytechnic State Univ., Collaborators C. M. Burt, John D. Valiantzas, Financial Sources: ARI, US Bureau of Reclamation.
3. TITLE: Experimental investigation of a water basin: Calibration of hydrological models, Duration: 2003-, Financial Sources: Agricultural University of Athens.
4. TITLE: Integrated water management of Mediterranean phosphate mining and agricultural systems, Duration: 2005- , Financial Sources: EU.
5. TITLE: Urban BioRoof - Cooperation for R&D on screening and formulation of substrates and plants for green roofs. (2013-20150)

12. Publications in referred international scientific journals

(Indexed in ISI Web of Knowledge)

Author of 60 publications (as single author in 38 from the 60 publications) in the following referred international scientific journals:

[Water Resources Research](#)

[Journal of Hydrology](#)

Journal of Hydrologic Engineering, ASCE

Hydrology and Earth System Sciences

[Soil Science Society of America Journal](#)

[Journal of Irrigation and Drainage Engineering](#), ASCE

[Transactions of ASABE](#)

[Irrigation Science](#)

[Agricultural Water Management](#)

Irrigation and Drainage

In the following Areas of Research (the numbers refer to the list of publications that follows)

Soil Hydrology, Soil Physics, Hydrological Process: [1], [2], [3], [4], [5], [6], [7], [8], [34], [37], [39], [41], [42], [43], [44], [46], [47], [48], [49], [50] [51], [52], [53], [54], [55], [56], [57], [58], [59], [60]..

Surface Irrigation - Open Channel Hydraulics: [9], [10], [11], [12], [14], [15], [16], [17], [18], [19], [20], [21], [40].

Pressurized systems - Closed Conduits Hydraulics: [13], [22], [23], [24], [25], [26], [27], [28], [29], [30],[31], [32], [33], [35], [36], [38], [45].

List of Publications in Referred Journals

1. **Valiantzas, J.D., P.G. Kerkides, and A. Poulouvassilis.** “An improvement to the one-step outflow method for the determination of soil water diffusivities”, *Water Resources Research*, 24(11): 1911-1920, 1988.
2. **Valiantzas, J.D.** “A simple approximate equation to calculate diffusivities from one-step outflow experiments”, *Soil Science Society of America Journal*, 53: 342-349, 1989.
3. **Valiantzas, J.D., and P.G. Kerkides.** “A simple iterative method for the simultaneous determination of soil hydraulic properties from one-step outflow data” *Water Resources Research*, 26(1): 143-152, 1990.
4. **Valiantzas, J., and C. Thirriot.** “Transport in heterogenous porous formations 1. Time-dependent convective dispersion”, *Journal of Hydrology*, 118: 311-327, 1990.
5. **Valiantzas, J., and C. Thirriot.** “Transport in heterogenous porous formations 2. Time-dependent double dispersion”, *Journal of Hydrology*, 118: 329-342, 1990.
6. **Valiantzas, J.D.** “Analysis of outflow experiments subject to significant plate impedance”, *Water Recourses Research*, 26(12): 2921-2929, 1990.
7. **Valiantzas, J.D.** “Simple regression procedure for power function”, *Journal of Irrigation and Drainage Engineering*, ASCE, 117(5):784-790, 1991.
8. **Valiantzas, J.D., and A. Salsalou.** “Laboratory determination of unsaturated hydraulic model” *Journal of Hydrology*, 128: 293-304, 1991.

9. **Valiantzas, J.D.** “Border advance using an improved volume balance model” *Journal of Irrigation and Drainage Engineering*, ASCE, 119(6):1006-1013, 1993.
10. **Valiantzas, J.D.** “Simple method for identification of border infiltration and roughness characteristics” *Journal of Irrigation and Drainage Engineering*, ASCE, 120(2):233-249, 1994.
11. **Valiantzas, J.D.** “Surface irrigation advance equation: variation of subsurface shape factor” *Journal of Irrigation and Drainage Engineering*, ASCE, 123(4):300-306, 1997.
12. **Valiantzas, J.D.** “Volume balance irrigation advance equation: Variation of surface shape factor” *Journal of Irrigation and Drainage Engineering*, ASCE, 123(4):307-312, 1997.
13. **Valiantzas, J.D.** “Analytical approach for direct lateral hydraulic calculation”. *Journal of Irrigation and Drainage Engineering*, ASCE, 124(3), 300-305, 1998.
14. **Valiantzas, J.D.** “Volume balance irrigation advance equation: Variation of surface shape factor” Closure *Journal of Irrigation and Drainage Engineering*, ASCE, 124(6), 325-327, 1998.
15. **Valiantzas, J.D.** “Explicit time of advance formula for furrow design” *Journal of Irrigation and Drainage Engineering*, ASCE, 125(1), 19-25, 1999.
16. **Valiantzas, J.D., S. Aggelides, and A. Sassalou.** “Furrow infiltration estimation from time to a single advance point” *Agricultural Water Management*, 52(1),17-32, 2001.
17. **Valiantzas, J.D.** “Surface water storage independent equation for predicting furrow irrigation advance” *Irrigation Science* 19, 115-123, 2000.
18. **Valiantzas, J.D.** “Discussion of ‘Estimation of surface volume in hydrological models for border irrigation” *Journal of Irrigation and Drainage Engineering*, ASCE, 126(2), 131-133, 2000.
19. **Valiantzas, J.D.** “Optimal Furrow design. I: Time of advance equation” *Journal of Irrigation and Drainage Engineering*, ASCE, 127(4), 201-208. 2001.
20. **Valiantzas, J.D.** “Optimal Furrow Design II: Explicit Calculation of Design Variables” *Journal of Irrigation and Drainage Engineering*, ASCE, 127(4), 209-215, 2001.
21. **Valianzas, J.D.** “Discussion on Explicit volume balance model solution” *Journal of Irrigation and Drainage Engineering*, ASCE, 127(1), 60-62, 2001.
22. **Valiantzas, J.D.** “Continuous Outflow Variation along Irrigation Laterals: The effect of the Number of Outlets” *Journal of Irrigation and Drainage Engineering*, ASCE, 128(1)34-42, 2002.
23. **Valiantzas, J.D.** “Hydraulic Analysis and Optimum Design of Multi-diameter Irrigation Laterals” *Journal of Irrigation and Drainage Engineering*, ASCE, 128(2), 78-87, 2002.

24. **Valiantzas, J.D.** “Explicit Hydraulic Design of Microirrigation Submain Units with Tapered Manifold and Laterals” *Journal of Irrigation and Drainage Engineering*, ASCE, 129(4), 227-236, 2003.
25. **Valiantzas, J.D.** “Inlet Pressure, Energy Cost and Economic Design of Tapered Irrigation Submains” *Journal of Irrigation and Drainage Engineering*, ASCE, 129(2), 100-108, 2003.
26. **Valiantzas, J.D.** “Continuous outflow variation along irrigation laterals: Effect of the number of outlets. Closure” *Journal of Irrigation and Drainage Engineering*, ASCE, 129(5), 386-390, 2003.
27. **Valiantzas, J.D.** “Discussion of Equivalent friction factor method for hydraulic calculation in irrigation laterals” *Journal of Irrigation and Drainage Engineering*, ASCE, 130(4), 339-340, 2004.
28. **Valiantzas, J.D., and N. Dercas.** “Hydraulic analysis of multi-diameter center-pivot sprinkler laterals” *Journal of Irrigation and Drainage Engineering*, ASCE, 131 (2): 137-146, 2005.
29. **Valiantzas, J.D.** “Closure to “Inlet pressure, energy cost, and economic design of tapered irrigation submains” *Journal of Irrigation and Drainage Engineering*, ASCE 131 (2): 224-225, 2005.
30. **Valiantzas, J.D., and N. Dercas.** “Economic design of center-pivot sprinkler laterals” *Journal of Irrigation and Drainage Engineering*, ASCE, 130 (6): 491-498, 2004.
31. **Valiantzas, J.D.** “Closure to “Explicit hydraulic design of microirrigation submain units with tapered manifold and laterals” *Journal of Irrigation and Drainage Engineering*, ASCE 131 (3): 299-300, 2005.
32. **Valiantzas, J.D.** “Discussion of “Linear Solution for Hydraulic Analysis of Tapered Microirrigation Laterals” *Journal of Irrigation and Drainage Engineering*, ASCE, 131(5), 487-489, 2005.
33. **Valiantzas, J.D.** “Modified Hazen-Williams and Darcy-Weisbach equations for friction and local head losses along irrigation laterals” *Journal of Irrigation and Drainage Engineering*, ASCE, 131(4), 342-350, 2005.
34. **Valiantzas, J.D.** “Simplified versions for the Penman evaporation equation using routine weather data” *Journal of Hydrology*, 331(3-4), 690-702, 2006.
35. **Valiantzas, J.D., N. Derkas, and G. Karantounias.** “Explicit optimum design of simple irrigation delivery system”, *Transactions of the ASAE*, 50(2), 429-438, 2007.

36. **Valiantzas, J.D.** Closure to "Modified Hazen-Williams and Darcy-Weisbach Equations for Friction? and Local Head Losses along Irrigation Laterals" by John D. Valiantzas *Journal of Irrigation and Drainage Engineering, ASCE*,133 (4), 421, 2007.
37. **Valiantzas, J.D., P.A Londra, and A. Sasselou.** "Explicit formulas for the soil water diffusivity using the one-step outflow technique" *Soil Science Society of America Journal*, 71(6), 1685-1693, 2007.
38. **Valiantzas, J.D.** "Explicit power formula for the Darcy - Weisbach pipe flow equation: Application in optimal pipeline design" *Journal of Irrigation and Drainage Engineering, ASCE*, 134 (4), 454-461, 2008.
39. **Valiantzas, J.D., and P.A Londra.** "Direct determination of the Brooks-Corey hydraulic functions by fitting an extended power function to the outflow method data" *Journal of Hydrology*, 362(1-2), 128-133, 2008.
40. **Valiantzas, J.D., V. Pollalis, K. Soulis, and P.A. Londra.** "Modified form of the extended Kostiakov equation including various initial and boundary conditions" *Journal of Irrigation and Drainage Engineering, ASCE* Volume: 135 (4), 450-458, 2009.
41. **Soulis, K.X., J.D. Valiantzas, N. Dercas, and P.A. Londra.** "Analysis of the runoff generation mechanism for the investigation of the SCS-CN method applicability to a partial area experimental watershed" *Hydrology and Earth System Sciences*, 13(5): 605-615, 2009.
42. **Valiantzas, J.D.** "New linearized two-parameter equation for direct determination of conductivity and sorptivity" *Journal of Hydrology*, 384(1-2), 1-13, 2010.
43. **Valiantzas, J.D.** "Combined Brooks-Corey / Burdine and Van Genuchten / Mualem Closed Form Model for Improving Prediction of Unsaturated Conductivity" *Journal of Irrigation and Drainage Engineering, ASCE*, 137(4): 223-233, 2011
44. **Valiantzas, J.D., E.D. Pollalis, K.X. Soulis, and P.A. Londra.** "Rapid Graphical Detection of Weakness Problems in Numerical Simulation Infiltration Models Using a Linearized Form Equation" *Journal of Irrigation and Drainage Engineering, ASCE*, 137(8):524-529, 2011
45. **Dercas, N., and J.D. Valiantzas.**"Two explicit optimum design methods for a simple irrigation delivery system: Comparative application" *Irrigation and Drainage*, 61(1): 10-19, 2012 .
46. **Soulis, K.X., and J.D. Valiantzas.** "Variation of Runoff Curve Number with Rainfall in Heterogeneous Watersheds. The Two-CN system approach" *Hydrology and Earth System Sciences*, 16(3): 1001-1015, 2012.

47. **Londra, P.A., and J.D. Valiantzas.** “Soil water diffusivity determination using a new two-point outflow method” *Soil Science Society of America Journal*, 75(4):1343-1346, 2011.

PhD. Thesis

1. Valiantzas, J. “Etude par simulation numérique de l’influence des hétérogénéités sur les propriétés hydrodynamiques d’un milieu poreux”, *Institut Nationale Polytechnique de Toulouse*, 1979.

14. Citations

About 605 citations in international journals according to Scopus, about 560 according to Web of Science (Core Collection), and about 1000 in Scholar.

Many of the published works are used by other international reputation researches as the basis for the development of new methods and/or comparisons. Indicative papers are:

“**Calibration** of Valiantzas’ reference evapotranspiration equations for the Pilbara region, Western Australia”//, “**Investigation** of Valiantzas’ evapotranspiration equation in Iran”//, “**Application** of Valiantzas approach to estimating reference evapotranspiration in China”//, “**Evaluation** of FAO-56 Penman-Monteith model with limited data and the Valiantzas models for estimating grass-reference evapotranspiration in the Sahelian conditions”//, “**Evaluation** of Different Methodologies to Estimate Reference Evapotranspiration from PRISM Dataset in the Southeastern USA.”//, “**Evaluation** of sixteen reference evapotranspiration methods under sahelian conditions in the Senegal River Valley”//, “**Determination** of the water diffusivity of horticultural substrates: Comparison of different approaches for the one-step outflow data analysis”//, “**Quick** method for estimating furrow infiltration”//, “**Proper** methods and its calibration for estimating reference evapotranspiration using limited climatic data in Southwestern China”//, “**Comparison** of different empirical methods for estimating daily reference evapotranspiration in mediterranean climate”//, “**Comparison** of Two Different Adaptive Neuro-Fuzzy Inference Systems in Modelling Daily Reference Evapotranspiration”, and many others.

Many citations in PhD Theses.

Many citations with extensive analytical reference on the published work in classical text books with international reputation. Indicative books are presented hereinafter:

Design and operation of farm irrigation systems: Hydraulics of surface systems. By Theodor S. Strelkoff and Albert J. Clemmens. St. Joseph, Mich.: American Society of Agricultural and Biological Engineers, c2007, p. 436-498. **Methods of soil analysis:** Physical methods. By J. H. Dane, G. Clarke Topp, Gaylon S. Campbell. 2002. Pages 1692. **Kinematic wave modeling in water resources:** environmental hydrology By Vijay P. Singh. 1997, pp73-76. Pages 830. **Stochastic methods in subsurface contaminant hydrology.** By Rao S. Govindaraju. 2002, pp 306, ASCE Press pages 410. **Dynamics of multiscale earth systems.** By Horst J. Neugebauer, Clemens Simmer. p154, springler-Verlag 2003, pages 357. **International chemical engineering, Vol. 32.** By American Institute of Chemical Enginee, 1992, p. 688, pages 1955. **Water-resources engineering.** By David A. Chin. 2006, p 38 and p 927, pages962. **Hydrogeology: Principles and Practice** By Kevin M. Hiscock, Victor F. Bense, 2014, **Hydrology: A Science for Engineers** edited by André Musy, Benoit Hingray, Cécile Picouet p. 170, 2014, **Management of Drip/Trickle or Micro Irrigation** By Megh R. Goyal, 2012 **Evaporation and Evapotranspiration: Measurements and Estimations** By Wossenu Abtew, Assefa M. Melesse p 125,131,132, 2012 and many others.
